Dear Chaver,

Thank you for your interest in this unique chazora and learning program. What you are about to read can change your life, as it has changed the lives of countless others.

This program is based on a few simple ideas: 1) Every person in Klal Yisroel is obligated to learn kol haTorah kula 2) A person is obligated to remember what he has learned, and 3) We are not malochim and we have to use all reasonable methods at our disposal to achieve our goal.

In order for us to retain any knowledge we have acquired, we must review many times what we've learned so that it leaves a lasting impression and is stored in our long-term memory. Someone who has learned a fact and wants to remember it must not allow a 24-hour period to go by before seeing it a second time.

Once you've seen the material twice, don't let more than 7 days go by before reviewing it a third time. Similarly, after 30 days, review it again. After reviewing the material four times, you can wait 90 days before reviewing it a fifth time.

After you've reviewed the material five times, it's locked into your long-term memory, and you must review it only once a year on the date of the original learning.

This does take a bit of time to get used to, but many people can personally attest to its success. People tell us how their newfound hasmoda has turned their lives around, beruchnius ubegashmius.

Please look over the attached schedules to see how the program works.

We will be happy to explain the system to you and help you develop your own schedule so you can get started as soon as possible.

In the merit of our limud haTorah, may we be zocheh to greet Moshiach - bimheira beyomeinu, amen!

gain tremendous satisfaction  
using this chazara program

### Quotes from Rabbayim who have seen great changes by using this system

- ✿ This chazara program was instituted last year in my cheder. I was amazed at the results and brought in several local mechanchim to observe the level of retention achieved. I have since encouraged all the Rebbeim in the cheder to use it. I was first shown this program by a Rabbi from Lakewood, and seeing it used in action is awesome.
- ✿ I have given my students a new lease on learning!!!!
- ✿ This system has allowed all my talmidim to find success at their own pace and everyone comes out a winner.
- ✿ Chanoch Lano'ar Al Pi Darcho-This great learning tool has showed me a way to reach each child on his own level.

Dear Chaburas Shas,

I have been a Rebbi in cheder in Eretz Yisroel for many years and have watched my students face many different challenges in learning and retention. I was looking for a way to help them and then a few years ago I was introduced to this fantastic chazara program. I can only begin to try to explain the excitement it has generated for my talmidim. We have a giant calendar on the blackboard which informs us of our program for the day. The talmidim feel secure knowing if they do not grasp the concepts the first time we learn them there will be other times to review them. This drastically reduces the pressure and there is a lot of enthusiasm and togetherness felt in the classroom. Everyone enjoys the chazara and each child can grow at his own pace. I have seen boys that were having many difficulties overcome them slowly but surely as they began to succeed in grasping new concepts. The talmidim gain a new self-confidence with each passing lesson. I have had success with all types of talmidim. Even a young child with a learning disability or concentration problem can find success with this program. This program helps the talmid build his skills for life. He is able to use this system for all types of learning anywhere he goes. I would recommend this system be implemented in all institutions of learning. It can be used for all types of learning in any place and at any time. By using this system you too can give others a chance to experience success and a love of learning to last a life time.

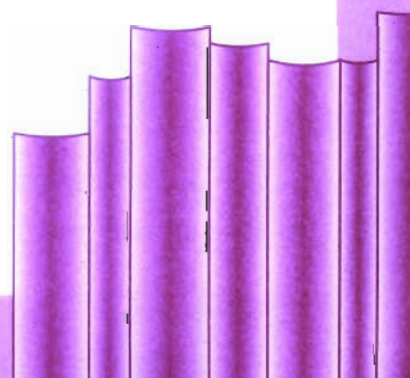

Thank you for showing me a way to encourage and help our next generation grow in learning and Yiddishkite.

❖ **Lo bashomayim he, velo me'eiver layam** - this is within our grasp!

❖ As Reb Zusha said, in Shomayim they won't ask me why I wasn't Moshe Rabbeinu. They will ask me why I wasn't Zusha.

**Won't you join us?**

A talmid chochom is one who familiarizes himself with his learning by reviewing constantly.  
(Rashi, Berachos 5a).

## תכנית חזרה - דף לכל יום

### ONE NEW BLATT PER DAY

This program can be used for any subject, during any amount of time you have - even ten minutes a day! Chumash, Navi, Gemara, Mishna, mussar, halocha - let us know what you'd like to learn and how much, and we'll set up a personalized program for you.

Here's an example of a program we set up for learning Daf Yomi, one new blatt per day:

**The system:** After learning one blatt of Gemara, learn it a second time within 24 hours. Once you've learned it twice, a week can go by before learning it a third time. After learning it three times within eight days, review it a fourth time within one month. After 90 days, review the material again. Now you can review the material every year on the anniversary of the day you began. In our example, each blatt is learned on Day 1, Day 2, Day 9, Day 39, Day 129, and then once a year.

**The goal:** In this example, you would complete all of Shas within eight years (4-12 times) and then review seven to eight blatt a day (in 2-3 hours) where you will complete and review Shas every year.
